

# Fuccha Handbook : A Fresher's Guide to DTU

## A note to freshers

With charm and thrill in their eyes, the newly admitted batch of students awaits the opportunity to have a glimpse of their college life. Confused, perplexed yet excited to get acquainted with the experiences that await them, freshers enter the new phase of their lives with a lot of uncertainty. Post shuffling choices and a confusing counselling session, you have made it to the beginning of a new journey. This journey demands you to explore, to learn, to innovate and to lay yourself open to new ideas and opinions. With enough of fun, enjoyment and learning, this new phase will definitely be remembered as one of the best times of your life. While entering this completely new environment, it is normal to feel lost. Our agenda here is to ease your transition to college. We present to you this handbook to guide you through this journey. Every nook and corner of the campus has fascinating tales to tell and memories waiting to be made. We wish you all the best for this first step with the hope that you will make everlasting friendships and have unforgettable experiences here.

# ACADEMICS

A new journey of your life is already on your doorstep. College is all about exploring things and enjoying yourself to the fullest. At the same time, one should not forget that we are here to build our careers, hence devoting enough time to your studies is essential. The change of environment can be overwhelming and appropriate guidance is required to give you a head start. Go through the academics section below, we hope it will help you gather the required momentum.

## Is CGPA important?

Many of you must be wondering about the importance of the cumulative grade point average.

Never listen to any advice along the lines of “CGPA is not important” or “CGPA zaroori nahi hai.” Maintaining a CGPA of 8.0 or above is considered good and at times essential, for both good placements and internships. Having a decent CGPA is the bare minimum that everyone in the college can do to develop a good profile.

Companies often hesitate to accept the application of a person with active backlogs in his/her CV. Most companies have a cut off of 8.0 CGPA (and above) for internships and 7.5 CGPA (and above) for placements. Also, note that the cut off for internships is higher than that for placements, so you should work hard in order to maintain a good CGPA in your 1<sup>st</sup> and 2<sup>nd</sup> year to get an internship in a reputed company in your 3<sup>rd</sup> year.

Maintaining a decent CGPA is not tough if you are organised and regular in your academics.

## Is 75% Attendance necessary?

While learning in college is not just limited to classrooms, it is important to attend classes, both for attendance and knowledge. Though exemptions could be made under special circumstances, it is always recommended to maintain a minimum of 75% attendance in order to avoid detention, especially after the introduction of the Attendance App, which marks real-time attendance via Bluetooth. Also, having a good attendance gives you an edge over others in both written examination and internal assessment.

## Where to find the study material?

- The required books can be rented or purchased from the bookstores outside the campus (near the main gate) at reasonable prices.
- Many books are also available in the **library** and can be issued for the whole semester (books under the **Book Bank section**) or for a period of 15 days.
- Abundant Online Resources-
  - ✓ **RefmeDTU, DTU Resources, DTU All in One** contain the required study material.
  - ✓ **Google drive links** (created by your seniors) contain subject-wise notes.
- Notes as well as lab manuals are also available at the **photocopy shop** at MechC.

## Books to refer:

Although university studies can never be summed up in one book, we have tried to create a list of books which cover the maximum part of the syllabus and can help you sail through the exams:

Physics I & II	AK Jha
Mathematics I & II	HC Taneja
Basic Electrical Engineering	CL Wadhwa/ BL Thareja
Programming Fundamentals	Let Us C
Engineering Graphics	ND Bhatt
Workshop Practices	Manuals at photocopy shop
Chemistry	Jain & Jain
Basic Mechanical Engineering (Part A)	P K Nag
Basic Mechanical Engineering (Part B)	Prof. Rooplal's notes ( available at photocopy shop)

## A Guide to FEC

DTU provides its students with a variety of **Foundational Elective Courses(FEC)** to choose as per their interests. Each FEC carries 3 credits and each student has to complete 4 FECs, one each in the first four semesters. It is compulsory to take environmental science as one of these 4 FECs. FECs are allotted on a first come first serve basis at the time of registration. The plethora of options available are:

### 1) **Physical Education/ Sports**

Students can choose one among the following sports: **Volleyball, Badminton, Cricket, Athletics, Lawn Tennis, Football, Basketball** and **Kabaddi**. The students are evaluated only on the basis of practical examination.

### 2) **Introduction to Environmental Science**

The subject creates awareness among students and sensitizes them towards the global environmental hazards. A written examination is conducted for evaluation. This subject is compulsory to be taken up once in the first 4 semesters.

### 3) **Communication Skills**

An extension of English that you have studied in class 12, you have to study a novel and poems along with writing skills and phonetics. A written exam is conducted to check the student's understanding.

### 4) **Business Communication and Presentation Skills**

Evaluation is done on the basis of a written examination. Along with this a large number of group activities are conducted in the classroom which include group discussions, extempore, parliamentary debate and much more.

### 5) **Technical communication**

As an engineer, one should know how to communicate technical information. The subject is an exploration of English in the technical domain. A written exam is conducted for evaluation.

### 6) **Public Speaking**

The subject teaches you how to present yourself in front of a large audience. Regular practical examinations are conducted for the purpose of evaluation. You have to just gather your confidence and speak well in front of the class to score good.

### 7) **Logical Reasoning**

It deals with drawing valid conclusions based on various premises and evaluating logical expressions. Evaluation is on the basis of a written examination.

### 8) Foreign Languages

Students can choose one among the following languages: **French, German, Japanese and Chinese**. A written examination is conducted to check the student's understanding and command over the language. If you want to learn a new language or have already studied it in school, this subject is for you.

### 9) Yoga

With a lot of stress in their lives, engineers can find this subject a way to rejuvenate their mind and soul. Having no written exam and complete evaluation on the basis of practical is a stressbuster in itself.

### 10) Music

All the guitarists, drummers, pianists, vocalists and music lovers, this subject is definitely going to excite you and can keep the musician in you alive, irrespective of your hectic schedule. With only practical examinations, one can score well and at the same time enjoy oneself to the fullest.

The FECs have been introduced recently and are provided to build a strong value-based foundation for your personality. Choose them wisely and explore your interests or develop new ones.

## Learning Outside Classroom

It is neither necessary nor possible to learn everything within the four walls of a classroom. For a student of professional degree, it is the need of the hour to learn enough from outside sources. In developing the required skills, it's become to get oneself acquainted with the environment outside the classroom. One may opt for one of the following sources:

- **Online Courses** : There are many online sources available where one can enrol in a free or paid online course. **Udemy** (for coding and allied fields) and **NPTEL** (for core branches) are quite useful. Other platforms, where one can test his/her skills are also available.
- **Offline Courses**: One can also get enrolled in some offline course. Various institutions like Coding Ninja, Coding Blocks etc. provide various courses for students.
- **Workshops/ Seminars**: A large number of free and paid workshops and seminars are organised by various societies or college administration. The theme could vary from personality development and career counselling to machine learning and artificial intelligence.

## Internships and Placements

Internships and placements play a major role in your career building, hence having the right knowledge and appropriate guidance right from the beginning is important. This section will help you clear most of your doubts.

### Minimum number of internships:

AICTE has mandated 3 internships, each spanning from a period of 4 to 6 weeks, for completion of a BTech degree. There are various online portals (like **Internshala**) and professional networking platforms (like **LinkedIn**) which might help one in landing a good internship. Use of personal contacts for grasping an off campus internship is also quite common. In addition to this, DTU has also launched a University Student Internship Programme(USIP) to engage DTU students in various activities of the University.

### Work from home

The importance of work from home internships varies from person to person. While it is not always recommended to opt for an online internship because the prime motive of an internship is to provide hands on experience and team interaction, one can go with such internships if the experience can help one to hone his/her skills.

### Paid Or Unpaid Internships

A company may offer both paid and unpaid internships. One must remember that internships, no matter paid or unpaid, provide a new experience and industrial exposure to students. One must ask “Is it worth devoting my time?”, “Does it really helps me gather the required skills?”. If the answer comes out to be ‘yes’, he/she must go for it. Don’t do it just for a certificate and be prepared to work in demanding conditions.

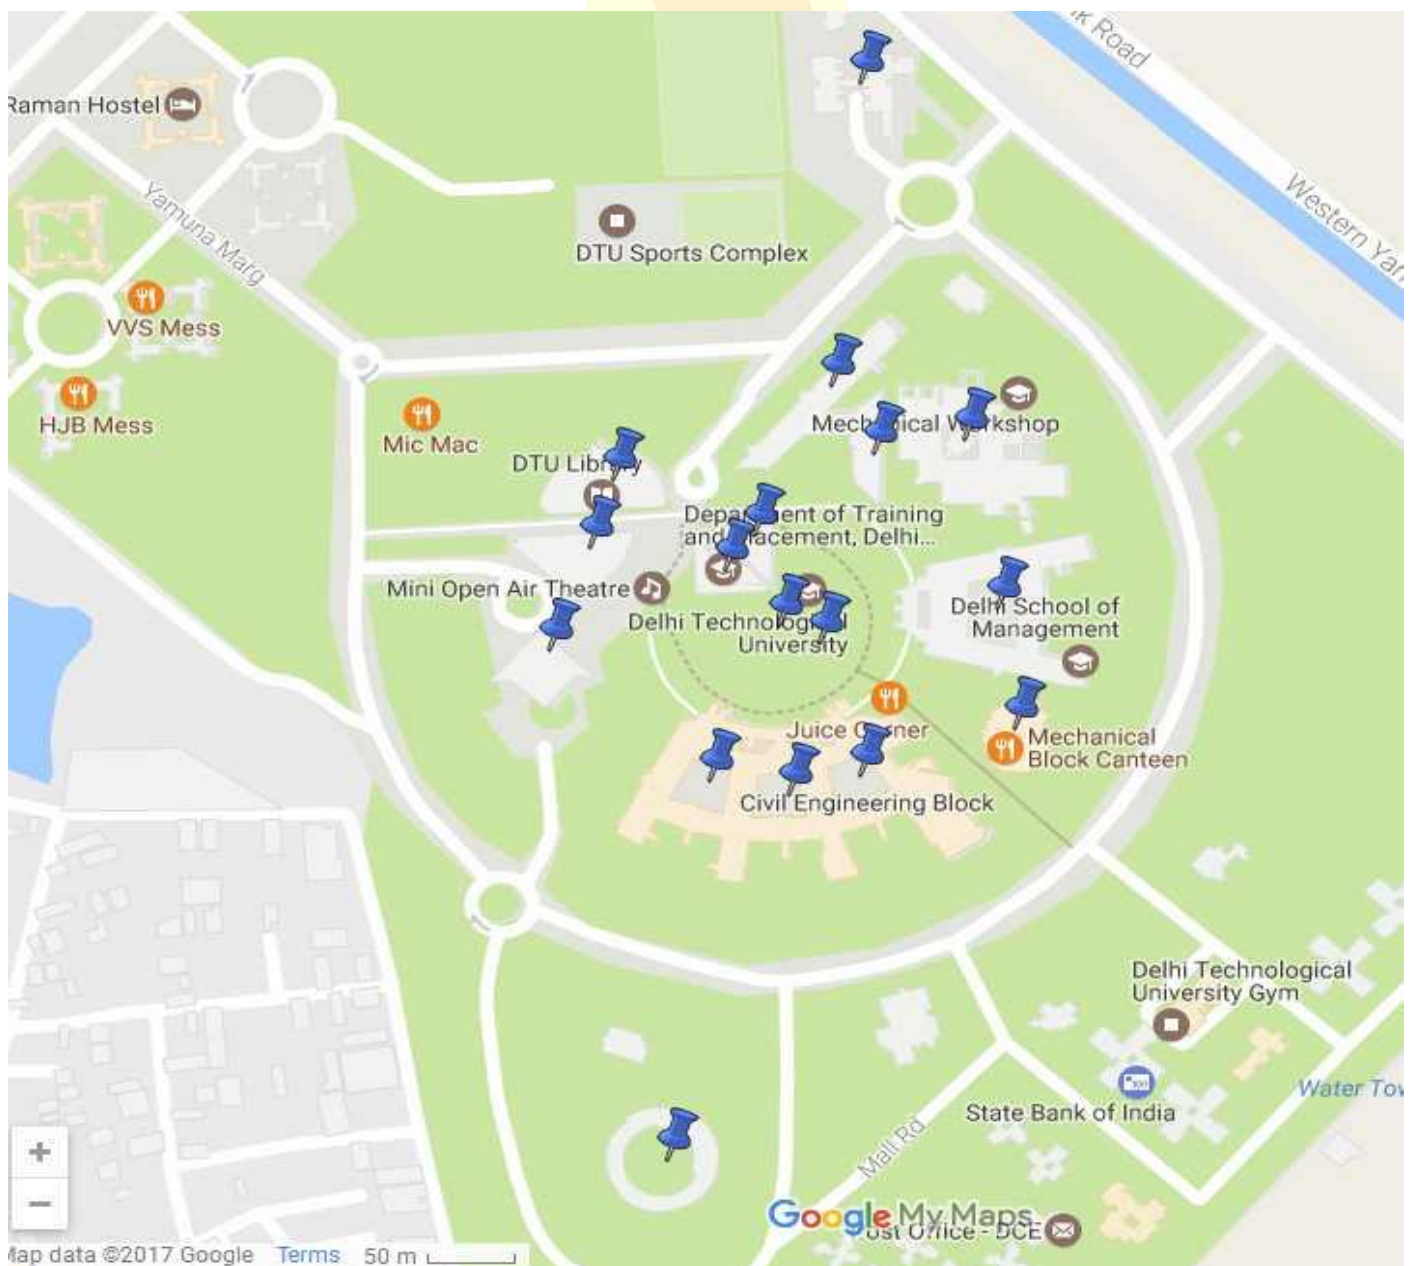

### Is coding the only way?

While this technical degree is dominated by coding and allied options, it is not the only way. Though a lot of tech giants(**Microsoft, Google, Adobe**) visit the campus for placement and internships, the opportunities in the Non-Tech sector are also abundant. Reputed companies (like **Deloitte, KPMG, Ernst &Young, PwC**) offer non-tech profiles ( data analysts, business consultants, marketing, finance). Along with this, various companies visit DTU for placement and internships in the core branches. The list includes automobile giants like **Maruti, Bajaj** and Public Sector Undertakings (PSUs) like **BHEL, Indian Oil** etc.

# Knowing Places

With a campus spreading over 164 acres, DTU has enough fascinating sites to keep you engaged. A large sports complex, a lake, gyms, departmental classrooms and a variety of laboratories with latest technology make sure that you are well equipped.

## Campus map:

## Common Hotspots in the campus

### OAT (Open Air Theatre)

This uplifted circular disc is situated at the heart of the campus. It is a place to chill during a summer evening and to bask in the sun during the winters. The OAT has the capacity to accommodate the entire university and becomes a major hotspot during celebrations. The central stage has hosted a large number of famous personalities and influencers.

### Central Library

DTU has a world class fully air-conditioned, three-floored Central Library which supports the teaching and research programmes of the University. Besides having a huge collection of books on engineering, science and humanities, it also offers access to various digital sources.

### Sports complex

The sportsperson in you would be completely fulfilled to see such a big ground which offers a variety of outdoor sports like football, basketball and volleyball along with indoor badminton and table tennis courts. The complex also has gyms for the fitness freaks who want to work out in the campus.

### DTU Lake

Situated opposite the BR Auditorium, your attachment to the lake is directly proportional to the amount of time you will spend in college. Unlike other colleges, DTU boasts of having a lake within its premises. We are leaving the exploration of this place upto you.

## Eating hotspots:

### MechC

The mechanical canteen aka MechC is the hub of DTU. The intensity of the cheers and the enjoyment during a cricket match in the canteen can't be described. The variety of food (North Indian, South Indian and Chinese) provided in the canteen and the crowd that can be found here during their lunch break is a testament of the position that MechC holds in the heart of every DTUite.

### Nescafe

From the coffee that can keep you awake during the lectures to the ice tea that will keep you alive during summers, you will get all of them here. Our beloved Nescafe, though a little heavy on your pocket, is the ideal resting place for people with old Hindi songs playing around.

### Mic Mac

A true lifesaving destination for post-midnight snacks, Mic Mac is the most visited place in DTU. If you are feeling hungry at 2 am, just come here and find more people like you. From Maggi to Parantha, you will get everything to satiate your midnight cravings. Try to stay in good terms with the owner, Chandan Bhaiya, or he might lose his cool.

### Amul

Though a small shop situated near MechC, it is the most crowded place in DTU. You'll find maximum number of societies and event registrations happening at Amul. You can grab milk shakes, snacks, sandwiches and pastries here too.

## Rooms of DTU and Where to find them:

Most of the classes for first years happen in the **SPS** (Semi-Permanent Structure). The easiest way to find an SPS is to **keep walking along the outer circle**. On entering the main gate, keep walking straight till you reach the Electrical Block and from there start walking towards your right.

SPS 1-4	Near Mechanical Workshop
SPS 5-8	Near Mechanical Department
SPS 9-12	A little ahead of MechC
SPS 13-14	On back side of BR Audi
DTU Library	Walk straight from SPS 13-14
OAT (Open Air Theatre)	Walk straight from MechC, towards the clock tower
Mini OAT	In front of BR Audi
Civil Raised Platform (CRP)	On the left side of MechC, the small ground.
Convocation Hall	Enter civil dept (from MechC side), the first room on your right
T&P (Training and Placement) / Computer Centre	At OAT, walk across the steps on fountain
Chemistry/ Physics Lab	In the Block straight from library
ED lab	SPS 4
Amul	In front of MechC, the amul shop
Nescafe	Across the OAT, beside BR Audi
Mic Mac	On the back side of SPS 13-14
TW/LW/FW/IW	Teaching/ Lab/ Faculty/ Inclined Wing
GF/FF/SF	Ground/ First/ Second floor

## Hangout Spots Near Campus

The sights outside the campus are no less fascinating. With a variety of restaurants, cafés and malls in its vicinity, there is an abundance of hangout spots near DTU.

- **Restaurants**

A break in between classes and you can find more people like you in the food spaces near the main gate which include Sachdeva Food Court, The Chef and Food Gallery.

- **Cafes**

The nearby area of Rohini has a lot of good cafés such as Hogwarts Café and Café BFF. These Cafés serve only veg appetizers, yet they are popular hangout spots.

- **G3S**

G3S Mall, Rohini is a hub of movie theatres, food courts and shopping complexes. From Dominos to BTW, you will get every outlet here.

- **NSP**

When you have hours to spend, NSP comes to your rescue. In this corporate office-cum-hangout place, you can find plenty of street food outlets, Punjabi dishes and leading food chains of India.

## Must Visit Places in Delhi

Regardless of what you believe, there are things in Delhi that you just cannot afford to miss out on!

- **Shop at Sarojini Nagar** : A shopper's paradise – Sarojini Nagar Market is possibly the best place in Delhi for all your shopping needs. From shoes, clothes, bags to accessories and beauty products – the place offers everything at discounted prices.
- **Eat At Jama Masjid** : It is always a good time to have some amazing Mughlai dishes near Jama Masjid! From mutton korma, crackling rotis and butter naans to tandoori chicken, you have hundreds of dishes to choose from.
- **Book Shopping at Daryaganj** : With the latest bestsellers at one-fourth the original price, the Sunday Book Market is the ultimate destination for every bibliophile. If you can't resist surrounding yourself with books – this little market is a heaven for you.
- **Food Festivals** : Every year, Delhi hosts a plethora of food festivals that will surely drive you crazy! With the ever increasing cuisines and flavors, some must not miss ones are – The Grub Fest, The North-East Festival and The Palate Festival.

# Life at Campus

## Hostel life

This is definitely the best thing to look forward to in your college life. Living in a hostel is the most enriching experience one could have during college. New city, new friends, new experiences, new responsibilities are just glimpses of what awaits you. From the anxiety of having moved to a new city to the nervousness of sharing your room with a stranger, all fades away in the excitement of the freedom and enjoyment that hostel life offers. From going to Maggi Baba at 2am to waking up at 3 in the night just for playing hilarious pranks on your roommates, hostellers have done it all.

### Facilities provided at hostels

- Fast LAN and Wi-Fi internet connection to assist you in your studies and yes, for downloading those pending web series.
- Mess facility to meet your food requirements (though it rarely does). But as a hosteller, you have abundance of eating options inside campus. From the cheap food at MechC to post-midnight snacks at Mic Mac, you have access to a variety of food.
- A common room with TV to keep all the hostel residents together during that cricket match.
- Laundry services to keep your tension of washing clothes aside.
- A Badminton court to provide you with a sporting experience without going to the sports complex.

## Life as a Day Scholar

Not everyone in the university is fortunate enough to get a hostel, especially Delhiites. But the life of a day scholar is no less exciting. You have both the privilege of a comfortable stay at home and yet get to enjoy every second that you spend in campus. The thrill of a night stay in the college during fests or a long drive with friends, day scholars have a lot of experiences to add to their kitty. From the excitement of coming to college to catch a solitary glimpse or just chilling with friends on the day of mass bunks, day scholars fill their baskets with enough sweet memories and tales worth recounting.

## **Transportation Options Available**

### **Nearest Metro Stations:**

- **Samaypur Badli** – Yellow Line
- **Rithala** – Red Line

E-rickshaws or autos could be fetched from the main gate to reach these metro stations. DTU also runs its bus, free of cost, for students, faculty and staff. The timings of the same could be obtained from the main gate security booth.

### **Bus Facilities:**

A large number of DTC buses connect DTU to a large number of places. Major bus routes are :

- **165** – Anand Vihar to Shahbad Dairy connecting places like Mukarba Chowk, Samaypur, Jahangirpuri, Wazirpur and Yamuna Vihar.
- **879** – Uttam Nagar to Shahbad Dairy connecting places like Vikaspuri, Janakpuri, Peeragarhi and Madhuban Chowk.

## **Paying Guest Accommodations**

Many students opt for a PG to cut down on the time spent travelling. Choosing a PG or travelling from home is completely a personal choice and comes with its own pros and cons. Finding a safe, comfortable and affordable PG accommodation is not a tedious task. There are various options available near the campus with single, double or triple room sharing.

### **Facilities available:**

Though the facilities provided depends on various factors like price, sharing, room size, location etc, almost every PG provides following facilities:

- CCTV cameras
- Guards and security system
- Wi-Fi connectivity

Not every PG provides mess facilities. The students (both day scholars or PG residents) can use the hostel mess facility for breakfast, lunch or dinner by paying for it.

## All about Societies

Societies are a great way of exploring your interests in college and connecting to like-minded people. They provide you with that atmosphere where your interests can blossom. With some 50+ societies, tech teams and clubs, DTU provides you with ample opportunities in almost every domain.

### A) Technical

- a) IEEE (EE & Programming Soc)
- b) SR- DTU (Robotics Soc)
- c) IOSD (Programming Soc)
- d) DCE Coders (Programming Club)
- e) CSI (Computer Society of India)
- f) Zenith (Astronomy Soc)
- g) Cosmology Club (Astronomy Soc)
- h) IGTS (Indian Game Theory Soc)
- i) SAE (Automobile Soc)
- j) ASCE DTU (Civil Engineering Soc)
- k) ASME DTU (Mechanical Engineering Soc)
- l) Ilche (Chemical Engineering Soc)
- m) Spare (Engineering Physics Soc)
- n) DEPTH (Engineering Physics Soc)
- o) SCEE (Civil and Environmental Soc)
- p) SIAM (Applied Mathematics Soc)
- q) MACS (Applied Mathematics Soc)

### B) Creative/ Others

- a) Pratibimb (Drama Soc)
- b) Sahitya (Literary Soc)
- c) DTU times (Official Newsletter of DTU)
- d) Madhurima (Music Soc)
- e) Vibe (Dance Soc)
- f) Kalakriti (Arts and crafts Soc)
- g) Panache (Fashion & Designing Soc)
- h) Bhangra (Bhangra Soc)
- i) Nrityangana (Indian Dance Soc)
- j) Parchhayi (Photography & Film Soc)
- k) Zaffran (Food Blogging Soc)
- l) Delhi-42 (Quiz Club)
- m) RoundTable (Debating Soc)
- n) Deltech MUN (MUN Soc)
- o) TedX DTU
- p) E-Cell DTU
- q) Elixir (Health Soc)

### C) Social Services

- 1. National Service Scheme (NSS DTU)
- 2. Leaders for Tomorrow (LFT DTU)
- 3. Enactus DTU
- 4. Rotaract DTU Regency
- 5. YES+
- 6. JUGNU

### D) Technical Teams

- 1. Defianz Racing (Formula Student Car)
- 2. DTU Supermileage (Efficient Vehicles)
- 3. Team Raftaar (Velomobile)
- 4. UAS (Unmanned Aerial Systems)
- 5. AUV (Autonomous Underwater Vehicle)
- 6. DelTech Baja
- 7. Team Solaris (Solar vehicles)
- 8. Inferno DTU (Mars rover)
- 9. Altair (Robotics)

## Experiences that await you:

### Fresher's Week:

Fresher's Week will mark your first encounter with the fun and enjoyment that you are going to experience in the next 4 years. Organized by the Cultural Council, this week long extravaganza has something in store for everyone. Starting with a movie screening, we then have the EDM night, Ethnic night, informal events, comedy shows, and all this finally culminates with the Fresher's Night. This week will officially mark the beginning of a very exciting phase of your life.

### Fests:

Fests are one of the attractions that DTU students always vouch for. The fest season, spread over a period of 3 months, is multi-varied and diverse with artists from almost every field performing live.

- **YUVAAN LITERATURE AND FILM FESTIVAL**

The biggest Youth Literature and Film Festival in India marks the beginning of the fest season at DTU and is a dream destination for every literature lover. With big names like Manisha Koirala, Durjoy Dutta, Yahya Bootwala, Helly Shah and more joining the guest list every year, the fest will definitely give a kick-start to your new year.

- **INVICTUS, THE TECHFEST**

For all the tech-savvy people, the Official Tech Fest of DTU provides a variety of options. Competitions vary from Hackathons to robo-wars, along with a variety of informal events. Be sure to attend the robo-race!

- **ENGIFEST, THE CULTURAL FEST**

Claiming to be the biggest in North India, the annual cultural fest of DTU is heavily loaded with stars and cultural performances. Sunidhi Chauhan, Vishal-Shekhar and Quintino, to name a few, have been a part of the fest over the past years.

- **AAVAHAN, THE SPORTS FEST**

The sports fest of DTU boasts of a plethora of competitions varying from chess, table tennis to football and kabaddi. The enthusiasm for the colour run during the fest is a clear indication of its importance.

## **Interaction with Seniors**

### **Is Ragging Persistent?**

Any sort of physical or verbal act that is likely to cause discomfort comes under ragging. DTU observes a strict anti-ragging policy with zero tolerance towards any act of ragging in or outside campus and hence your interaction with your seniors is likely to be friendly. There is a dedicated anti-ragging committee, in case of any unfortunate events.

### **Need for a Senior-Junior Interaction**

A healthy senior-junior interaction is always important. In college, a senior is like an elder sibling who enjoys with you and at the same time guides you towards the best. In such an alien environment, it is good to have a voice of experience to consult, who will help you deal with changes on both the personal and academic front. Having the right mentor in college can make the experience more enriching and fulfilling. From assisting with academics to helping you out in difficult situations, a right senior is the the best blessing.

### **Making New Friends**

College is the time to make new friends and build everlasting friendships. Socializing is an important aspect of campus life. Be it your seniors, batchmates, roommates, staff or faculty, establishing good relations is integral. With such a vast population from diverse backgrounds, DTU provides you with ample opportunities to network. Societies, fest teams and clubs provide tremendous opportunities for one to interact with like-minded people. Your entrance test preparation might have made you cut down on your social life. But now, it is high time to work on having an active social life. Establishing your peer group is important in college. Socializing relieves the stress of college life, detoxes your body and rejuvenates you with energy and enthusiasm. That one talk with your bestie or that one tip from your senior can make your life happier and will drive away the loneliness.

### **Trying your hands at new things**

It is in the college that one can explore his/her interests. Trying hands at new things that come in the way can help in better discovery of self. DTU campus offers a myriad of opportunities from dance, drama to debating and photography. In your first year, you have enough of free time that must be invested in finding your passion. Just give a try to the various things happening in the campus and find out what suits you the most.

## Taking Care of your Health

### Eating Healthy

Amidst all the enjoyment, it is likely that one does not give due emphasis to what he/she eats. Many times, one does not maintain a proper diet. Opting for healthy eating habits will not only help to revive your metabolism but will also control your hunger and boost your energy.

- Have breakfast daily. Even if you wake up at lunchtime, begin your day with a healthy meal. If you don't have time for a "sit down" breakfast, keep healthy items in your dorm room for on-the-move snacking.
  - >Oatmeal packets
  - >Toned milk which is easily available at Amul store.
  - >Fruits (grab one from the dining hall to save as a snack later)
  - >Nuts (such as cashews, almonds and walnuts)
- Grab on some healthy evening snacks so that you don't feel too hungry during dinner.
  - > In evening you will get various snacks at the hostel mess like tea, pastries ,pakoras, bread pakora, samosa etc.
  - >Snacks are also available in the canteen.
  - >Eat on some fruits as a healthy option.
  - >Soup packets that can be prepared with hot water are also available

### Staying fit

The lush green 164 acres campus can never let your fitness ebb. Though you need to walk a lot for reaching the classrooms or while going to the labs, indulgence in physical activities is important. Some of the facilities provided are:

- A large Sports Complex with outdoor and indoor sports facilities.
- 2 fully furnished and well-equipped gyms along with some open air gyms.
- Special arrangement for yoga.

Along with physical fitness, a special emphasis on mental fitness in our hectic college schedules is also important. A lot of sessions are organised on meditation and breathing techniques. Having a good peer group can help you detox and rejuvenate.

## **Handling the newly found freedom**

### **Adjusting to New Environment**

For most students, entering college is a terrifying and overwhelming experience. It is when the fear of unknown is the greatest fear of all. The transition from school to college is a phase to prepare yourself to take responsibilities. One must not forget to keep themselves away from bad company and should work on becoming better versions of oneself. If you are caught in any difficult situation, feel free to talk to any of your friends, seniors or faculty.

### **Managing finance**

College life can be very exciting but at the same time it can burn a hole in your pocket. For a teenager who has just stepped out of school, managing monthly expenses can be challenging. Lavishly spending in the first few days can make you run out of money towards the end. Keep a track of your expenditure. Sacrificing one ice cream during summer evenings or a coffee instead of a cappuccino will go a long way in helping you save on food expenses. Planning a trip with friends instead of a solo one can not only reduce the expenses per head, but also help you develop strong bonding.

### **Staying safe**

Staying safe in and around campus is important. As you enter this stage of independence, your safety becomes your responsibility. The CCTV surveillance and dedicated security force ensure that every student of the university remains safe. With special emphasis on girls' security, a large women security and police force is deployed in the campus. Apart from the University's vital role, a student must stay careful about his/her choices and decisions.

### **Staying away from addictions**

Being naive and young, many students indulge in habits like drinking, smoking and taking drugs which can be life threatening. For a vulnerable hormonal teenager, it is likely to get addicted to these things. You may or may not realise it sooner, but such addictions can destroy your life. One must strictly avoid the company that promotes these harmful activities. Don't let peer pressure affect you and keep such addictions at bay. Ask your seniors for help if someone is forcing you into it.

## Contacts of Seniors

Below is a list of contacts of seniors, in case you have any further doubts.

### ◆ BT

Parv - 9891411997 (4th year)  
Anuksha - 9910514440 (3rd year)  
Rahul Kumar - 9472244090 (2nd year)

### ◆ COE

Saanidhi Arora - 8901341340 (4th Year)  
Himanshu Hooda - 9812555833 (3rd year)  
Himanshu - 9354040804 (2nd year)

### ◆ CE

Kshitij Gupta - 8800409839 (4th year)  
Pritesh - 83969 45934 (3rd year)  
Shivam - 9315655677 (2nd year)

### ◆ MCE

Anjali Bhavan - 96546 47823 (4th year)  
Devesh Singh - 8800626787 (3rd year)  
Rahul Sharma - 8178133309 (2nd year)

### ◆ EP

Surleen Kaur - 9971344084 (4th year)
